HOW TO PLAY

1. Layout the numbers as shown
2. Toss the marker/stone to square one
3. Skip square one and hop on all the numbers using one foot for single numbers, both for doubles, turn and hop back, bend over and pick up your marker/stone on the way.
4. If you over throw the marker/stone or lose balance, then you end your turn. Continue with remaining numbers. First one back to number one wins!
